

To a Place of Possible

By: Alani Davis

The blue rose means 'the impossible'
But you changed that
The blue rose means dreams coming true
It means achieving the unattainable
You helped change my mindset
In a world of insecurity and sensitivity
You helped me realize that I can do anything if I just try hard enough
How I'm still working on my confidence; Your quotes become my anchor
Even if you don't know me
And never will
You will always remain my anchor
Who I know won't judge nor yell
when I'm in my most vulnerable state
So, thank you.

The Singular RAY of Hope

By: Alani

Remember when you were broken in sorrow
Even I can remember your worst moments of life
Beaming from the window was just a small ray of sun
If you just knew how much that changed your life
Remember when the ray peeked through you window everyday
To my dear, now you are doing better: in and out
How well you've been doing, and I hope you stay this way forever
